

FOOD SYSTEMS ACADEMY

an open education resource for transforming our food systems

The Food Systems Academy is a free, on-line set of talks and other resources that help you explore where our food systems came from, how they change, what the challenges are and how to meet them.

Free keynote talks by leading specialists:

The Food System: an overview *Geoff Tansey*

Food regimes and their transformation

Harriet Friedmann

The crucial century, 1945-2045: transforming food systems in a global context *Paul Rogers*

The Right to Food: an overview *Olivier de Schutter*

Food and thriving people in the 21st century

Geoff Tansey

Changing our fatally flawed food system

Tim Lang

Sustainable diets and public health *Tim Lang*

How to feed a city - and change the world

Carolyn Steel

Food, nutrition and poverty: an overview

Elizabeth Dowler

Gender issues in food and farming: an overview

Janice Jiggins

Seeds of contention, control or diversity? -

Global rules, intellectual property and the future control of food *Geoff Tansey*

Understanding intellectual property -

1: An overview and 2: How business lobbying changed the world *Peter Drahos*

From food regimes to food sheds: the case of Southern Ontario *Harriet Friedmann*

Biology and chemistry for peace not war

Malcolm Dando
